

IMEKO TC 2 Symposium on Photonics in Measurements 2008

Olympik Hotel, Prague, Czech Republic, August 25 – 26, 2008

Organized by Czech and Slovak Society for Photonics

Photonics has dramatically expanded and progressed in recent years. Photonics technologies and solutions are widely implemented in measuring and testing because of their flexibility, reliability and contact-less nature. The 18th IMEKO TC 2 Symposium on Photonics in Measurements 2008 will summarise the impact and contribution of Photonics to the field of measurements.
